Sample Projects

CARPET CLEANING AND MAINTENANCE **MACDILL AFB SOCOM FACILITY**

XSI performed carpet cleaning services on a weekly basis for the SOCOM facility located at Macdill AFB in Tampa, FL for approximately 4 years. Services included working in restricted areas with military escort and the care of approximately 2,000,000 square feet of total carpet cleaning using extraction and encapsulation methods.

UPHOLSTERY CLEANING MAINTENANCE **Louisiana State University (LSU)**

XSI performs upholstery cleaning services on a monthly basis for the Health Sciences division of LSU University in New Orleans, LA and has done so for the last 5 years. Service includes cleaning of all upholstered furniture in common areas and the creation of cleaning protocol using wet and dry cleaning methods for the care of over 10,000 pieces annually.

VARIOUS MOLD REMEDIATION PROJECTS **Brand Bank and Trust (BB&T)**

XSI has performed Mold Remediation at several corporate branch locations of BB&T bank in the state of Georgia. Responsibilities included creation of protocol, containment of non-affected areas and the total remediation of all mold in affected areas. Total remediation of all projects estimated at 50,000 square feet.

WATER AND FLOOD MITIGATION CLEANUP **Boys & Girls Club of America**

XSI performed mitigation and cleanup in the Conyers, GA branch following a mass-flooding event caused by a ruptured fire sprinkler line. Work included water extraction, drying of structure using high-cfm desiccant dehumidifiers, demolition of interior, monitoring of moisture levels throughout drying process, treatment to prevent mold growth and the preparation of interior for rebuild.
